

Qubryx One — Page Tickets

One ticket per page/screen. Each lists the page description and every component on it — name, description, and the full set of pages that component appears on.

Pre-Auth

Login

TICKET 01

Route: `/login` · Access: Public

The app's only unauthenticated screen — a fully mocked login gate. A two-pane layout pairs an auto-advancing product showcase on the left with a sign-in form on the right. All three entry paths (form submit, SSO, demo) log in identically; there is no real credential validation.

COMPONENT	DESCRIPTION	USED IN
Showcase Carousel	An auto-advancing 4-slide product showcase with animated inline-SVG illustrations.	Login
Sign-in form	Email/password fields, an SSO button, and a one-click demo-workspace entry.	Login

Employee · Home (Signal)

TICKET 02

Route: `/app/employee` · Access: Employee

The default landing screen for the employee persona — an ambient three-zone overview of the day: a live signal feed on the left, a central identity hub ringed by domain shortcuts (Calendar, Leave, Pay, Documents, Growth, Requests), and a personalized action rail on the right.

COMPONENT	DESCRIPTION	USED IN
Life Sphere Hub	The central identity disc ringed by domain-shortcut nodes on curved spokes.	Employee · Home (Signal), Manager · Home, HR · Home
Today Rail	The persona-specific right-hand action rail — collapsible to an icon capsule.	Employee · Home (Signal), Manager · Home, HR · Home
Recognition Card	A kudos-sending widget with a reason picker and a confetti-burst animation.	Employee · Home (Signal)
Pulse Card	A 1-5 weekly rating input for the team pulse survey.	Employee · Home (Signal)
Onboarding Card	A circular progress ring plus checklist for a new joiner's first tasks; disappears once complete.	Employee · Home (Signal)
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
Corner Grammar	Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).	Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home
Q Orb	Animated glowing orb representing Q's mood (idle/listen/think/answer/alert), docked at the right end of the Cue bar.	Employee · Home (Signal), Manager · Home, HR · Home
The Cue	The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home
Q Panel	The slide-in chat sidebar — full conversation log with rich response rendering (charts, CSV downloads, rationale, source citations, action buttons).	Employee · Home (Signal), Manager · Home, HR · Home

COMPONENT	DESCRIPTION	USED IN
Clock Widget	Live attendance clock — circular progress ring against an 8-hour goal, with clock-in/out and break controls.	Employee · Home (Signal)
Contextual Add ("+")	The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home
Group Panel / Stack Tray	Floating tray that rises when one or more tokens are stacked — combine into a comparison, or ask Q about the whole set.	Employee · Documents & Assets, Manager · Team
Toasts	Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Wallpaper + Fluid Field	Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.	Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings
Pulse Layer	A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Sound + Haptics	Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Concept Icon + registry	One glyph and one semantic tint bound to each of ~46 named concepts — the single source of truth for icon usage app-wide.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Overlay · Document Viewer

Employee · Home (Board)

TICKET 03

Route: `/app/employee (homeView=board)` · Access: Employee

A personal free-form pinboard swapped in for the Signal view via a bottom-left mode switch — assemble pinned data and tool cards on a dotted canvas, scoped privately to this persona.

COMPONENT	DESCRIPTION	USED IN
Board quick-add palette	Persona-scoped list of quick-add data/tool cards for Board view.	Employee · Home (Board)
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
Contextual Add ("+")	The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home
The Cue	The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home
Wallpaper + Fluid Field	Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.	Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings
Drop-zone registry	Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.	Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team

Employee · Home (Workspace)

TICKET 04

Route: `/app/employee (homeView=workspace)` · Access: Employee

An infinite, pannable canvas of notes, checklists, and lists with connector lines — the third of three interchangeable home modes, structurally shared across all personas.

COMPONENT	DESCRIPTION	USED IN
Workspace note/list/todo cards	Free-position cards (note, checklist, or bulleted list) on the infinite canvas.	Employee · Home (Workspace)
FlowBoard connectors	Labeled arrows linking Workspace cards; connected clusters auto-group into a FlowBoard.	Employee · Home (Workspace)
Contextual Add ("+")	The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home
The Cue	The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home
Drop-zone registry	Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.	Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team

Employee · Calendar

TICKET 05

Route: `/app/employee/calendar` · Access: Employee

The org/personal calendar and self-service leave-application surface — a visual day-track view paired with a guided, multi-step leave-request wizard and built-in policy rules (auto-conversion, quota checks, conditional document upload).

COMPONENT	DESCRIPTION	USED IN
Month Ribbon	A stacked, per-month SVG sine-wave day-track calendar view.	Employee · Calendar
Detail Grid	A conventional 7-column month grid view (alternate to the Ribbon).	Employee · Calendar
Leave Composer	The 5-step guided leave-application wizard (type, duration, dates, reason, conditional doc upload).	Employee · Calendar
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
The Cue	The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Employee · Documents & Assets

TICKET 06

Route: `/app/employee/documents` · Access: Employee

The employee-facing library of company policies and announcements, with search, category filters, and acknowledgment tracking, plus a read-only register of allocated IT assets.

COMPONENT	DESCRIPTION	USED IN
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
Corner Grammar	Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).	Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home
Concept Icon + registry	One glyph and one semantic tint bound to each of ~46 named concepts — the single source of truth for icon usage app-wide.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Overlay · Document Viewer
Group Panel / Stack Tray	Floating tray that rises when one or more tokens are stacked — combine into a comparison, or ask Q about the whole set.	Employee · Documents & Assets, Manager · Team
Assets Section	A read-only grid of IT assets allocated to the employee, with a downloadable register.	Employee · Documents & Assets
downloadTextFile utility	A client-side Blob-based text/CSV file download helper, currently duplicated three times.	Employee · Payroll, Employee · Documents & Assets, HR · Payroll
Toasts	Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Pulse Layer	A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Sound + Haptics	Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Drop-zone registry	Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.	Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team
Synthesized (result card)	The combine/relate output card, built on Token Card, with a gradient	Employee · Documents & Assets, Manager · Team, Employee · Home

COMPONENT	DESCRIPTION	USED IN
	'provenance seam' blending its two parents' tint colors.	(Signal)
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Employee · Payroll

TICKET 07

Route: `/app/employee/payroll` · Access: Employee

The personal pay area — download past payslips (amounts masked by default) and submit or track expense-reimbursement claims.

COMPONENT	DESCRIPTION	USED IN
Payslip Library	A list of past payslips with masked amounts and a per-slip download.	Employee · Payroll
Reimbursements	An expense-claim form plus a status-tracked claim history.	Employee · Payroll
Masked	Obscures a sensitive numeric value (pay, phone) behind bullet characters with a click-to-reveal eye toggle.	Employee · Payroll, HR · Payroll
downloadTextFile utility	A client-side Blob-based text/CSV file download helper, currently duplicated three times.	Employee · Payroll, Employee · Documents & Assets, HR · Payroll

Employee · Growth

TICKET 08

Route: `/app/employee/growth` · Access: Employee

The personal career and performance hub — a Q-generated self-review summary, live goal tracking with a progress stepper, 1:1 prep, and a Journey tab showing a career-history timeline.

COMPONENT	DESCRIPTION	USED IN
Self-review summary card	A Q-generated strengths / blind-spots / perception-gap summary.	Employee · Growth
Goal Row	A goal's title, status pill, progress stepper, and due-date caption.	Employee · Growth, Manager · Growth
Progress Bar	A spring-animated fill bar used for goals, checklists, and comp bands.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding
1:1 Card	A shared meeting agenda plus a checkable action-item list.	Employee · Growth, Manager · Growth
Journey Timeline / Journey Mini	A vertical career-history timeline, in full and 3-item-preview variants.	Employee · Growth
Chart primitives	A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.	Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator
Checklist Row	A checkbox-square row with a strikethrough label and an owner tag.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Overlay · Plain Mode
Status Badge	A status-tinted pill (draft / published / archived, or review status).	Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth
Kind-Meta lookup helper	A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.	HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

Manager · Home

TICKET 09

Route: `/app/manager` · Access: Manager

The manager persona's landing screen — the same three interchangeable home modes as Employee, with a team-focused action rail (pinned Canvas apps, an approvals summary, team presence, a flight-risk attention card, and a coverage heat-strip).

COMPONENT	DESCRIPTION	USED IN
Life Sphere Hub	The central identity disc ringed by domain-shortcut nodes on curved spokes.	Employee · Home (Signal), Manager · Home, HR · Home
Today Rail	The persona-specific right-hand action rail — collapsible to an icon capsule.	Employee · Home (Signal), Manager · Home, HR · Home
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
Corner Grammar	Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).	Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home
Q Orb	Animated glowing orb representing Q's mood (idle/listen/think/answer/alert), docked at the right end of the Cue bar.	Employee · Home (Signal), Manager · Home, HR · Home
The Cue	The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home
Q Panel	The slide-in chat sidebar — full conversation log with rich response rendering (charts, CSV downloads, rationale, source citations, action buttons).	Employee · Home (Signal), Manager · Home, HR · Home
Contextual Add ("+")	The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home
Toasts	Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Wallpaper + Fluid Field	Selectable animated ambient background sitting beneath every screen — pure SVG/CSS,	Employee · Home (Signal), Manager · Home, HR · Home,

COMPONENT	DESCRIPTION	USED IN
	no canvas.	Overlay · Settings
Pulse Layer	A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Sound + Haptics	Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Avatar	Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.	Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home
Rationale Disclosure	A reusable 'Why this?' collapsible attached to any Q recommendation — why / why-now / worth noting / evidence, with a confidence dot.	Manager · Focus, HR · Focus, Employee · Home (Signal), Manager · Home, HR · Home

Manager · Team

TICKET 10

Route: `/app/manager/team` · Access: Manager

The direct-report roster — a radial team graph for small teams, automatically switching to a searchable, filterable grid once the team grows past roughly eight people.

COMPONENT	DESCRIPTION	USED IN
Roster grid	A searchable, department-filterable grid of person cards.	Manager · Team, HR · Org / People
Constellation / Org Tree graph	A radial (manager) or hierarchical (HR) relationship graph of people.	Manager · Team, HR · Org / People
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People
Avatar	Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.	Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
Corner Grammar	Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).	Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home
Group Panel / Stack Tray	Floating tray that rises when one or more tokens are stacked — combine into a comparison, or ask Q about the whole set.	Employee · Documents & Assets, Manager · Team
Drop-zone registry	Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.	Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team
Synthesized (result card)	The combine/relate output card, built on Token Card, with a gradient 'provenance seam' blending its two parents' tint colors.	Employee · Documents & Assets, Manager · Team, Employee · Home (Signal)

Manager · Approvals

TICKET 11

Route: `/app/manager/approvals` · Access: Manager

The leave-approval inbox — batch select/approve/decline, a separate Hold queue for parking decisions, and delegate-while-away coverage with an auto-approve-in-policy toggle.

COMPONENT	DESCRIPTION	USED IN
Approvals inbox rows	Batch-selectable leave-request rows with approve / decline / hold actions.	Manager · Approvals
Delegate-while-away control	A toggle to auto-approve in-policy requests while the manager is away.	Manager · Approvals
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Manager · Insights / Analytics

TICKET 12

Route: `/app/manager/analytics` · Access: Manager

Team-level analytics — a talent 2x2 grid, a team time-off heatmap, and free-text trend/change-detection queries answered by Q.

COMPONENT	DESCRIPTION	USED IN
Talent 2x2 grid	A performance x potential quadrant grid of clickable person chips.	Manager · Insights / Analytics, HR · Insights / Analytics
Time-off heatmap	A team x week color-intensity absence grid.	Manager · Insights / Analytics, HR · Insights / Analytics
Chart primitives	A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.	Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Manager · Growth

TICKET 13

Route: /app/manager/growth · Access: Manager

The manager's team-wide counterpart to Growth — create and cascade team goals with roll-up progress, review every direct report's 1:1, and oversee the review cycle (nudge outstanding, leave feedback).

COMPONENT	DESCRIPTION	USED IN
Goal Row	A goal's title, status pill, progress stepper, and due-date caption.	Employee · Growth, Manager · Growth
Progress Bar	A spring-animated fill bar used for goals, checklists, and comp bands.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding
1:1 Card	A shared meeting agenda plus a checkable action-item list.	Employee · Growth, Manager · Growth
Status Badge	A status-tinted pill (draft / published / archived, or review status).	Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets
Chart primitives	A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.	Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Manager · Documents

TICKET 14

Route: `/app/manager/documents` · Access: Manager

The authoring surface for team-scoped policies and announcements — the write-side counterpart to the employee Documents page, with draft/publish/archive lifecycle and an activity log.

COMPONENT	DESCRIPTION	USED IN
Entity editor panel	A title / body / type / audience / require-ack authoring form for documents and announcements.	Manager · Documents, HR · Policies
Activity log	A chronological list of the last few authoring actions.	Manager · Documents, HR · Policies
Status Badge	A status-tinted pill (draft / published / archived, or review status).	Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Manager · Planning

TICKET 15

Route: `/app/manager/planning` · Access: Manager

Workforce planning, tabbed — allocate merit-budget raises against a live meter with band-range visuals, and assign backup coverage for upcoming leave windows.

COMPONENT	DESCRIPTION	USED IN
Band-Range Visual	A dual-dot visual of current vs. projected salary within a min-max band.	Manager · Planning, HR · Planning
Coverage Gap Card	An avatar plus 'covered by' dropdown and a Q-suggested one-click accept.	Manager · Planning, HR · Planning
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets
Range Track	A dual-dot visualization of a value's position within a min-max band.	Manager · Planning, HR · Planning

Manager · Focus

TICKET 16

Route: `/app/manager/focus` · Access: Manager

A full-screen, priority-sorted action queue synthesizing every open task across the app (approvals, flight risk, coverage gaps, outstanding reviews, unallocated budget, live signals) into one swipeable list.

COMPONENT	DESCRIPTION	USED IN
Synthesized task list	The Focus queue's priority-sorted aggregator, merging six-plus live data slices into one list.	Manager · Focus, HR · Focus
Priority Card	A colored-left-accent-bar card for anything urgency-ranked — icon+kicker header, title, detail, action row.	Manager · Focus, HR · Focus, HR · Payroll
Swipe Card	A drag-to-dismiss card wrapper (swipe right to clear), with an elastic threshold.	Manager · Focus, HR · Focus
Rationale Disclosure	A reusable 'Why this?' collapsible attached to any Q recommendation — why / why-now / worth noting / evidence, with a confidence dot.	Manager · Focus, HR · Focus, Employee · Home (Signal), Manager · Home, HR · Home
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People
Kind-Meta lookup helper	A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.	HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

HR · Home

TICKET 17

Route: `/app/hr` · Access: HR / Admin

The HR/Admin landing screen — the same three home modes, with an org-wide action rail (current payroll-run status, onboarding pipeline preview, policy-acknowledgment compliance percentage, and an org-health signal card).

COMPONENT	DESCRIPTION	USED IN
Life Sphere Hub	The central identity disc ringed by domain-shortcut nodes on curved spokes.	Employee · Home (Signal), Manager · Home, HR · Home
Today Rail	The persona-specific right-hand action rail — collapsible to an icon capsule.	Employee · Home (Signal), Manager · Home, HR · Home
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus
Corner Grammar	Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).	Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home
Q Orb	Animated glowing orb representing Q's mood (idle/listen/think/answer/alert), docked at the right end of the Cue bar.	Employee · Home (Signal), Manager · Home, HR · Home
The Cue	The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home
Q Panel	The slide-in chat sidebar — full conversation log with rich response rendering (charts, CSV downloads, rationale, source citations, action buttons).	Employee · Home (Signal), Manager · Home, HR · Home
Contextual Add ("+")	The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.	Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home
Toasts	Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Wallpaper + Fluid Field	Selectable animated ambient background sitting beneath every screen — pure SVG/CSS,	Employee · Home (Signal), Manager · Home, HR · Home,

COMPONENT	DESCRIPTION	USED IN
	no canvas.	Overlay · Settings
Pulse Layer	A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Sound + Haptics	Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

HR · Org / People

TICKET 18

Route: `/app/hr/people` · Access: HR / Admin

The company-wide directory — a multi-root hierarchical org chart with automatic leaf-stacking and curved parent/child links, falling back to a plain roster grid at scale.

COMPONENT	DESCRIPTION	USED IN
Constellation / Org Tree graph	A radial (manager) or hierarchical (HR) relationship graph of people.	Manager · Team, HR · Org / People
Roster grid	A searchable, department-filterable grid of person cards.	Manager · Team, HR · Org / People
Avatar	Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.	Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People
Token Card / Token Frame	The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

HR · Payroll

TICKET 19

Route: `/app/hr/payroll` · Access: HR / Admin

The Pay Run Command Center — manage the current org-wide payroll run via a 4-stage progress tracker, an anomaly queue requiring human sign-off, and tabbed Register/Reconcile views with CSV export.

COMPONENT	DESCRIPTION	USED IN
Stage Tracker	A numbered-circle progress rail for a multi-step process — done / current / future, connected by a line.	HR · Payroll
Anomaly Queue	Per-payslip cards flagged for required human sign-off before release.	HR · Payroll
Register list / Reconcile list	A full payslip listing, and a month-over-month delta view with named reasons.	HR · Payroll
Masked	Obscures a sensitive numeric value (pay, phone) behind bullet characters with a click-to-reveal eye toggle.	Employee · Payroll, HR · Payroll
Priority Card	A colored-left-accent-bar card for anything urgency-ranked — icon+kicker header, title, detail, action row.	Manager · Focus, HR · Focus, HR · Payroll
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets
downloadTextFile utility	A client-side Blob-based text/CSV file download helper, currently duplicated three times.	Employee · Payroll, Employee · Documents & Assets, HR · Payroll
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

HR · Onboarding

TICKET 20

Route: `/app/hr/onboarding` · Access: HR / Admin

Manage incoming joiners — a per-candidate, 8-item checklist card with buddy assignment and live progress.

COMPONENT	DESCRIPTION	USED IN
Per-candidate Checklist Card	An 8-item, owner-tagged onboarding checklist with buddy assignment and live progress.	HR · Onboarding
Progress Bar	A spring-animated fill bar used for goals, checklists, and comp bands.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding
Avatar	Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.	Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home

HR · Offboarding / Exits

TICKET 21

Route: `/app/hr/exit` · Access: HR / Admin

Manage departures — the structural mirror of Onboarding: a start-offboarding intake form and an 8-step exit checklist, with a hard-locked access-revoke step.

COMPONENT	DESCRIPTION	USED IN
Start-offboarding form	A person / reason / last-day intake form that seeds the exit checklist.	HR · Offboarding / Exits
Checklist Row	A checkbox-square row with a strikethrough label and an owner tag.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Overlay · Plain Mode
Progress Bar	A spring-animated fill bar used for goals, checklists, and comp bands.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding
Access-revoke lock logic	A business rule that locks the 'revoke access' step until knowledge-transfer and asset-return are both done.	HR · Offboarding / Exits
Kind-Meta lookup helper	A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.	HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

HR · Policies

TICKET 22

Route: `/app/hr/documents` · Access: HR / Admin

HR's org-wide policy authoring surface — the same editor as Manager Documents, running with an added 'whole org' audience option and bulk nudge-non-acknowledgers action.

COMPONENT	DESCRIPTION	USED IN
Entity editor panel	A title / body / type / audience / require-ack authoring form for documents and announcements.	Manager · Documents, HR · Policies
Activity log	A chronological list of the last few authoring actions.	Manager · Documents, HR · Policies
Status Badge	A status-tinted pill (draft / published / archived, or review status).	Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

HR · Time & Holidays

TICKET 23

Route: `/app/hr/timeadmin` · Access: HR / Admin

Org-wide leave-policy administration — leave-type allotment steppers and full holiday-calendar CRUD (national / company / restricted), with an 'announce changes' broadcast.

COMPONENT	DESCRIPTION	USED IN
Leave-type stepper list	A list of leave types with a +/- annual-allotment stepper.	HR · Time & Holidays
Holiday CRUD list	Add/remove rows for the org holiday calendar (national / company / restricted).	HR · Time & Holidays
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People
Kind-Meta lookup helper	A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.	HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

HR · Planning

TICKET 24

Route: `/app/hr/planning` · Access: HR / Admin

The same Planning component used by Manager; HR reviews and approves compensation plans once a manager has submitted them, rather than editing raises directly.

COMPONENT	DESCRIPTION	USED IN
Band-Range Visual	A dual-dot visual of current vs. projected salary within a min-max band.	Manager · Planning, HR · Planning
Coverage Gap Card	An avatar plus 'covered by' dropdown and a Q-suggested one-click accept.	Manager · Planning, HR · Planning
Segmented Tabs / Filter Chip	A pill-shaped tab switcher or toggle chip with an active-segment highlight.	Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets
Range Track	A dual-dot visualization of a value's position within a min-max band.	Manager · Planning, HR · Planning

HR · Insights / Analytics

TICKET 25

Route: `/app/hr/analytics` · Access: HR / Admin

Org-wide analytics, mirroring the Manager Insights page at company scale.

COMPONENT	DESCRIPTION	USED IN
Talent 2x2 grid	A performance x potential quadrant grid of clickable person chips.	Manager · Insights / Analytics, HR · Insights / Analytics
Time-off heatmap	A team x week color-intensity absence grid.	Manager · Insights / Analytics, HR · Insights / Analytics
Chart primitives	A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.	Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

HR · Focus

TICKET 26

Route: `/app/hr/focus` · Access: HR / Admin

An HR-flavored priority queue — pooled/anomalous payslips, a submitted comp plan awaiting approval, near-complete onboarding candidates with no buddy assigned, and org-wide flight-risk people.

COMPONENT	DESCRIPTION	USED IN
Synthesized task list	The Focus queue's priority-sorted aggregator, merging six-plus live data slices into one list.	Manager · Focus, HR · Focus
Priority Card	A colored-left-accent-bar card for anything urgency-ranked — icon+kicker header, title, detail, action row.	Manager · Focus, HR · Focus, HR · Payroll
Swipe Card	A drag-to-dismiss card wrapper (swipe right to clear), with an elastic threshold.	Manager · Focus, HR · Focus
Rationale Disclosure	A reusable 'Why this?' collapsible attached to any Q recommendation — why / why-now / worth noting / evidence, with a confidence dot.	Manager · Focus, HR · Focus, Employee · Home (Signal), Manager · Home, HR · Home
Stat Pill	A colored-dot count pill summarizing one status category at a glance — non-interactive.	Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Cross-Persona Overlays

Overlay · Settings

TICKET 27

Route: `overlay = settings` · Access: All personas

The personalization and preview overlay — wallpaper picker, avatar picker, a live Role & Access preview (the only place persona/lens access is actually granted), and system toggles (theme, sound, ambient motion, Plain mode).

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Wallpaper + Fluid Field	Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.	Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings

Overlay · Team Availability Matrix

TICKET 28

Route: `overlay = matrix` · Access: Manager / HR

A read-only overlay showing a 14-day x teammate availability grid (in-office / remote / on-leave / weekend), with a per-day coverage-dip indicator.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Availability grid	A 14-day x teammate in/remote/leave/weekend grid with a daily coverage-dip row.	Overlay · Team Availability Matrix

Overlay · Add Person

TICKET 29

Route: `overlay = addPerson` · Access: HR

A small overlay form to add a new person to the org, immediately visible in the org graph and roster.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Person / Leave-Type / Duration forms	Simple field forms powering the Add Person, Add Leave Type, and Add Leave overlays.	Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave

Overlay · Add Leave Type

TICKET 30

Route: `overlay = addType` · Access: HR

A small overlay form to define a new leave type and its annual allotment.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Person / Leave-Type / Duration forms	Simple field forms powering the Add Person, Add Leave Type, and Add Leave overlays.	Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave

Overlay · Add Leave

TICKET 31

Route: `overlay = addLeave` · Access: Manager / HR

A two-step overlay wizard (pick a person, then type/mode/dates) for logging leave on behalf of a report.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
2-step Add Leave wizard	A person-picker step followed by a type/date step.	Overlay · Add Leave
Person / Leave-Type / Duration forms	Simple field forms powering the Add Person, Add Leave Type, and Add Leave overlays.	Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave

Overlay · Document Viewer

TICKET 32

Route: `docView (global id)` · Access: All personas

A global, full-text reading overlay for any single document, triggered from anywhere by setting one shared id rather than mounting a per-card modal.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Concept icon + registry	One glyph and one semantic tint bound to each of ~46 named concepts — the single source of truth for icon usage app-wide.	Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Overlay · Document Viewer

Overlay · Canvas (Vibe Studio)

TICKET 33

Route: `vibeOpen = true` · Access: Manager / HR

A chat-driven, no-code BI/dashboard builder — describe a metric or report in plain language (or pick a template) and get a live mini-app generated from the team's data, with rename/duplicate/export/refine/share actions.

COMPONENT	DESCRIPTION	USED IN
Canvas history rail	A list of previously built Canvas tools, click to reload into the chat thread.	Overlay · Canvas (Vibe Studio)
Chat thread with generated app cards	The conversational interface where Q builds a live widget inline.	Overlay · Canvas (Vibe Studio)
Widget templates (17) + generic primitives	Pre-built (flight-risk, comp-vs-perf, coverage, etc.) and freeform (kpi/gauge/trend/bars/table/timeline) generators.	Overlay · Canvas (Vibe Studio)
Recipes rail	One-click bundles that build several Canvas tools in a single action.	Overlay · Canvas (Vibe Studio)
Chart primitives	A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.	Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Overlay · Retention Simulator

TICKET 34

Route: `sim != null` · Access: Manager / HR

A what-if modal for modeling a retention intervention (bonus, high-visibility project, or promotion) against a flight-risk person, with a live before/after risk gauge.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Lever chip picker	A 3-option intervention picker (bonus / project / promotion).	Overlay · Retention Simulator
RetentionGauge	An SVG radial gauge visualizing before/after flight-risk score.	Overlay · Retention Simulator
Chart primitives	A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.	Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Overlay · Gesture Legend

TICKET 35

Route: `showLegend = true` · Access: All personas

An on-demand cheat-sheet naming the app's full gesture vocabulary plus the keyboard shortcut map.

COMPONENT	DESCRIPTION	USED IN
Modal shell	The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.	Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer
Gesture cheat-sheet grid	A card grid naming each gesture, its definition, and how to trigger it.	Overlay · Gesture Legend

Overlay · Product Tour

TICKET 36

Route: `showTour = true` · Access: All personas

A persona-aware, spotlight-and-card first-run coach-mark sequence (4-5 steps), replayable anytime from Settings.

COMPONENT	DESCRIPTION	USED IN
Spotlight overlay / Step card	A coach-mark spotlight ring paired with a step-by-step instructional card.	Overlay · Product Tour

Overlay · Plain Mode

TICKET 37

Route: `plain = true` · Access: All personas

A complete accessibility fallback — the entire spatial, gesture-driven UI is replaced with one flat, scrollable page of plain sections and ordinary buttons operating on the exact same underlying data.

COMPONENT	DESCRIPTION	USED IN
Flat accessible layout	Plain scrollable sections with ordinary buttons, replacing the spatial canvas entirely.	Overlay · Plain Mode
Checklist Row	A checkbox-square row with a strikethrough label and an owner tag.	HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Overlay · Plain Mode
Masked	Obscures a sensitive numeric value (pay, phone) behind bullet characters with a click-to-reveal eye toggle.	Employee · Payroll, HR · Payroll
