

Qubryx One — Illustrated Page Tickets

One ticket per page/screen, with a screenshot for every component — captured directly from the running app. “Used in” lists every page a component appears on, so shared pieces are obvious at a glance.

Pre-Auth

Login

TICKET 01

Route: `/login` · Access: Public

The app's only unauthenticated screen — a fully mocked login gate. A two-pane layout pairs an auto-advancing product showcase on the left with a sign-in form on the right. All three entry paths (form submit, SSO, demo) log in identically; there is no real credential validation.

Showcase Carousel

An auto-advancing 4-slide product showcase with animated inline-SVG illustrations.

Used in: Login

Sign-in form

Email/password fields, an SSO button, and a one-click demo-workspace entry.

Used in: Login

Employee · Home (Signal)

TICKET 02

Route: /app/employee · Access: Employee

The default landing screen for the employee persona — an ambient three-zone overview of the day: a live signal feed on the left, a central identity hub ringed by domain shortcuts (Calendar, Leave, Pay, Documents, Growth, Requests), and a personalized action rail on the right.

Life Sphere Hub

The central identity disc ringed by domain-shortcut nodes on curved spokes.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Today Rail

The persona-specific right-hand action rail — collapsible to an icon capsule.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Recognition Card

A kudos-sending widget with a reason picker and a confetti-burst animation.

Used in: Employee · Home (Signal)

Pulse Card

A 1-5 weekly rating input for the team pulse survey.

Used in: Employee · Home (Signal)

Onboarding Card

A circular progress ring plus checklist for a new joiner's first tasks; disappears once complete.

Used in: Employee · Home (Signal)

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Corner Grammar

Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home

Q Orb

Animated glowing orb representing Q's mood (idle/listen/think/answer/alert), docked at the right end of the Cue bar.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

The Cue

The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Q Panel

The slide-in chat sidebar — full conversation log with rich response rendering (charts, CSV downloads, rationale, source citations, action buttons).

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Clock Widget

Live attendance clock — circular progress ring against an 8-hour goal, with clock-in/out and break controls.

Used in: Employee · Home (Signal)

Contextual Add ("+")

The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home

Group Panel / Stack Tray

Floating tray that rises when one or more tokens are stacked — combine into a comparison, or ask Q about the whole set.

Used in: Employee · Documents & Assets, Manager · Team

Toasts

Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Wallpaper + Fluid Field

Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings

Pulse Layer

A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Sound + Haptics

Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Concept Icon + registry

One glyph and one semantic tint bound to each of ~46 named concepts — the single source of truth for icon usage app-wide.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Overlay · Document Viewer

Employee · Home (Board)

TICKET 03

Route: `/app/employee (homeView=board)` · Access: Employee

A personal free-form pinboard swapped in for the Signal view via a bottom-left mode switch — assemble pinned data and tool cards on a dotted canvas, scoped privately to this persona.

Board quick-add palette

Persona-scoped list of quick-add data/tool cards for Board view.

Used in: Employee · Home (Board)

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Contextual Add ("+")

The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home

The Cue

The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Wallpaper + Fluid Field

Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings

Drop-zone registry

Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.

Used in: Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team

Employee · Home (Workspace)

TICKET 04

Route: `/app/employee (homeView=workspace)` · Access: Employee

An infinite, pannable canvas of notes, checklists, and lists with connector lines — the third of three interchangeable home modes, structurally shared across all personas.

Workspace note/list/todo cards

Free-position cards (note, checklist, or bulleted list) on the infinite canvas.

Used in: Employee · Home (Workspace)

FlowBoard connectors

Labeled arrows linking Workspace cards; connected clusters auto-group into a FlowBoard.

Used in: Employee · Home (Workspace)

Contextual Add ("+")

The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home

The Cue

The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Drop-zone registry

Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.

Used in: Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team

Employee · Calendar

TICKET 05

Route: `/app/employee/calendar` · Access: Employee

The org/personal calendar and self-service leave-application surface — a visual day-track view paired with a guided, multi-step leave-request wizard and built-in policy rules (auto-conversion, quota checks, conditional document upload).

Month Ribbon

A stacked, per-month SVG sine-wave day-track calendar view.

Used in: Employee · Calendar

Detail Grid

A conventional 7-column month grid view (alternate to the Ribbon).

Used in: Employee · Calendar

Leave Composer

The 5-step guided leave-application wizard (type, duration, dates, reason, conditional doc upload).

Used in: Employee · Calendar

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

The Cue

The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Employee · Documents & Assets

TICKET 06

Route: `/app/employee/documents` · Access: Employee

The employee-facing library of company policies and announcements, with search, category filters, and acknowledgment tracking, plus a read-only register of allocated IT assets.

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Corner Grammar

Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home

Concept Icon + registry

One glyph and one semantic tint bound to each of ~46 named concepts — the single source of truth for icon usage app-wide.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Overlay · Document Viewer

Group Panel / Stack Tray

Floating tray that rises when one or more tokens are stacked — combine into a comparison, or ask Q about the whole set.

Used in: Employee · Documents & Assets, Manager · Team

Assets Section

A read-only grid of IT assets allocated to the employee, with a downloadable register.

Used in: Employee · Documents & Assets

downloadTextFile utility

A client-side Blob-based text/CSV file download helper, currently duplicated three times.

Used in: Employee · Payroll, Employee · Documents & Assets, HR · Payroll

Toasts

Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Pulse Layer

A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Sound + Haptics

Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

no static capture —
animated/transient or non-
visual

Drop-zone registry

Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.

Used in: Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team

no static capture —
animated/transient or non-
visual

Synthesized (result card)

The combine/relate output card, built on Token Card, with a gradient 'provenance seam' blending its two parents' tint colors.

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal)

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Employee · Payroll

TICKET 07

Route: `/app/employee/payroll` · Access: Employee

The personal pay area — download past payslips (amounts masked by default) and submit or track expense-reimbursement claims.

Payslip Library

A list of past payslips with masked amounts and a per-slip download.

Used in: Employee · Payroll

Reimbursements

An expense-claim form plus a status-tracked claim history.

Used in: Employee · Payroll

Masked

Obscures a sensitive numeric value (pay, phone) behind bullet characters with a click-to-reveal eye toggle.

Used in: Employee · Payroll, HR · Payroll

no static capture —
animated/transient or non-
visual

downloadTextFile utility

A client-side Blob-based text/CSV file download helper, currently duplicated three times.

Used in: Employee · Payroll, Employee · Documents & Assets, HR · Payroll

Employee · Growth

TICKET 08

Route: `/app/employee/growth` · Access: Employee

The personal career and performance hub — a Q-generated self-review summary, live goal tracking with a progress stepper, 1:1 prep, and a Journey tab showing a career-history timeline.

Self-review summary card

A Q-generated strengths / blind-spots / perception-gap summary.

Used in: Employee · Growth

Goal Row

A goal's title, status pill, progress stepper, and due-date caption.

Used in: Employee · Growth, Manager · Growth

Progress Bar

A spring-animated fill bar used for goals, checklists, and comp bands.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding

1:1 Card

A shared meeting agenda plus a checkable action-item list.

Used in: Employee · Growth, Manager · Growth

Journey Timeline / Journey Mini

A vertical career-history timeline, in full and 3-item-preview variants.

Used in: Employee · Growth

Chart primitives

A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.

Used in: Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Checklist Row

A checkbox-square row with a strikethrough label and an owner tag.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Overlay · Plain Mode

Status Badge

A status-tinted pill (draft / published / archived, or review status).

Used in: Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth

Kind-Meta lookup helper

A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.

Used in: HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

Manager · Home

TICKET 09

Route: /app/manager · Access: Manager

The manager persona's landing screen — the same three interchangeable home modes as Employee, with a team-focused action rail (pinned Canvas apps, an approvals summary, team presence, a flight-risk attention card, and a coverage heat-strip).

Life Sphere Hub

The central identity disc ringed by domain-shortcut nodes on curved spokes.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Today Rail

The persona-specific right-hand action rail — collapsible to an icon capsule.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Corner Grammar

Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home

Q Orb

Animated glowing orb representing Q's mood (idle/listen/think/answer/alert), docked at the right end of the Cue bar.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

The Cue

The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Q Panel

The slide-in chat sidebar — full conversation log with rich response rendering (charts, CSV downloads, rationale, source citations, action buttons).

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Contextual Add ("+")

The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home

Toasts

*no static capture —
animated/transient or non-
visual*

Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Wallpaper + Fluid Field

Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings

*no static capture —
animated/transient or non-
visual*

Pulse Layer

A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

*no static capture —
animated/transient or non-
visual*

Sound + Haptics

Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Avatar

Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.

Used in: Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home

Rationale Disclosure

A reusable 'Why this?' collapsible attached to any Q recommendation — why / why-now / worth noting / evidence, with a confidence dot.

Used in: Manager · Focus, HR · Focus, Employee · Home (Signal), Manager · Home, HR · Home

Route: `/app/manager/team` · Access: Manager

The direct-report roster — a radial team graph for small teams, automatically switching to a searchable, filterable grid once the team grows past roughly eight people.

Roster grid

A searchable, department-filterable grid of person cards.

Used in: Manager · Team, HR · Org / People

Constellation / Org Tree graph

A radial (manager) or hierarchical (HR) relationship graph of people.

Used in: Manager · Team, HR · Org / People

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Avatar

Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.

Used in: Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Corner Grammar

Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home

Group Panel / Stack Tray

Floating tray that rises when one or more tokens are stacked — combine into a comparison, or ask Q about the whole set.

Used in: Employee · Documents & Assets, Manager · Team

Drop-zone registry

Framework-free registry powering drag-target hit-testing and Q-bar proximity detection.

Used in: Employee · Home (Workspace), Employee · Home (Board), Employee · Documents & Assets, Manager · Team

Synthesized (result card)

The combine/relate output card, built on Token Card, with a gradient 'provenance seam' blending its two parents' tint colors.

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal)

Manager · Approvals

TICKET 11

Route: `/app/manager/approvals` · Access: Manager

The leave-approval inbox — batch select/approve/decline, a separate Hold queue for parking decisions, and delegate-while-away coverage with an auto-approve-in-policy toggle.

Approvals inbox rows

Batch-selectable leave-request rows with approve / decline / hold actions.

Used in: Manager · Approvals

Delegate-while-away control

A toggle to auto-approve in-policy requests while the manager is away.

Used in: Manager · Approvals

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Route: `/app/manager/analytics` · Access: Manager

Team-level analytics — a talent 2x2 grid, a team time-off heatmap, and free-text trend/change-detection queries answered by Q.

Talent 2x2 grid

A performance x potential quadrant grid of clickable person chips.

Used in: Manager · Insights / Analytics, HR · Insights / Analytics

Time-off heatmap

A team x week color-intensity absence grid.

Used in: Manager · Insights / Analytics, HR · Insights / Analytics

Chart primitives

A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.

Used in: Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Route: `/app/manager/growth` · Access: Manager

The manager's team-wide counterpart to Growth — create and cascade team goals with roll-up progress, review every direct report's 1:1, and oversee the review cycle (nudge outstanding, leave feedback).

Goal Row

A goal's title, status pill, progress stepper, and due-date caption.

Used in: Employee · Growth, Manager · Growth

Progress Bar

A spring-animated fill bar used for goals, checklists, and comp bands.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding

1:1 Card

A shared meeting agenda plus a checkable action-item list.

Used in: Employee · Growth, Manager · Growth

Status Badge

A status-tinted pill (draft / published / archived, or review status).

Used in: Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Chart primitives

A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.

Used in: Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Route: `/app/manager/documents` · Access: Manager

The authoring surface for team-scoped policies and announcements — the write-side counterpart to the employee Documents page, with draft/publish/archive lifecycle and an activity log.

Entity editor panel

A title / body / type / audience / require-ack authoring form for documents and announcements.

Used in: Manager · Documents, HR · Policies

Activity log

A chronological list of the last few authoring actions.

Used in: Manager · Documents, HR · Policies

Status Badge

A status-tinted pill (draft / published / archived, or review status).

Used in: Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Route: `/app/manager/planning` · Access: Manager

Workforce planning, tabbed — allocate merit-budget raises against a live meter with band-range visuals, and assign backup coverage for upcoming leave windows.

Band-Range Visual

A dual-dot visual of current vs. projected salary within a min-max band.

Used in: Manager · Planning, HR · Planning

Coverage Gap Card

An avatar plus 'covered by' dropdown and a Q-suggested one-click accept.

Used in: Manager · Planning, HR · Planning

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Range Track

A dual-dot visualization of a value's position within a min-max band.

Used in: Manager · Planning, HR · Planning

Route: `/app/manager/focus` · Access: Manager

A full-screen, priority-sorted action queue synthesizing every open task across the app (approvals, flight risk, coverage gaps, outstanding reviews, unallocated budget, live signals) into one swipeable list.

Synthesized task list

The Focus queue's priority-sorted aggregator, merging six-plus live data slices into one list.

Used in: Manager · Focus, HR · Focus

Priority Card

A colored-left-accent-bar card for anything urgency-ranked — icon+kicker header, title, detail, action row.

Used in: Manager · Focus, HR · Focus, HR · Payroll

Swipe Card

A drag-to-dismiss card wrapper (swipe right to clear), with an elastic threshold.

Used in: Manager · Focus, HR · Focus

Rationale Disclosure

A reusable 'Why this?' collapsible attached to any Q recommendation — why / why-now / worth noting / evidence, with a confidence dot.

Used in: Manager · Focus, HR · Focus, Employee · Home (Signal), Manager · Home, HR · Home

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Kind-Meta lookup helper

A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.

Used in: HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

HR · Home

TICKET 17

Route: /app/hr · Access: HR / Admin

The HR/Admin landing screen — the same three home modes, with an org-wide action rail (current payroll-run status, onboarding pipeline preview, policy-acknowledgment compliance percentage, and an org-health signal card).

Life Sphere Hub

The central identity disc ringed by domain-shortcut nodes on curved spokes.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Today Rail

The persona-specific right-hand action rail — collapsible to an icon capsule.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Corner Grammar

Four hover-revealed handles on every Token Card: top-left move (only drag entry), bottom-left stack (multi-select), top-right peel (toggle Layer 2), bottom-right close (hide).

Used in: Employee · Documents & Assets, Manager · Team, Employee · Home (Signal), Manager · Home, HR · Home

Q Orb

Animated glowing orb representing Q's mood (idle/listen/think/answer/alert), docked at the right end of the Cue bar.

Used in: Employee · Home (Signal), Manager · Home, HR · Home

The Cue

The bottom-center command bar — type or speak to Q; the app's one and only drag-to-Q drop target.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Employee · Calendar, Manager · Home, HR · Home

Q Panel

The slide-in chat sidebar — full conversation log with rich response rendering (charts, CSV downloads, rationale, source citations, action buttons).

Used in: Employee · Home (Signal), Manager · Home, HR · Home

Contextual Add ("+")

The floating add menu whose contents change with persona, region, and home-view mode — the most context-sensitive component in the app.

Used in: Employee · Home (Signal), Employee · Home (Board), Employee · Home (Workspace), Manager · Home, HR · Home

Toasts

Top-center, auto-dismiss (3.2s) notification stack — ok / warn / info tones.

visual

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Wallpaper + Fluid Field

Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings

*no static capture —
animated/transient or non-
visual*

Pulse Layer

A transient full-screen flash/ring/particle burst fired on every combine, relate, reject, and peel.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

*no static capture —
animated/transient or non-
visual*

Sound + Haptics

Procedural Web Audio effects paired 1:1 with vibration feedback for every gesture.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Route: /app/hr/people · Access: HR / Admin

The company-wide directory — a multi-root hierarchical org chart with automatic leaf-stacking and curved parent/child links, falling back to a plain roster grid at scale.

Constellation / Org Tree graph

A radial (manager) or hierarchical (HR) relationship graph of people.

Used in: Manager · Team, HR · Org / People

Roster grid

A searchable, department-filterable grid of person cards.

Used in: Manager · Team, HR · Org / People

Avatar

Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.

Used in: Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Token Card / Token Frame

The core draggable, three-layer data card — face (always visible), Layer 1 expand (long-hover/tap), Layer 2 peel (top-right corner, deeper AI detail). Every record in the app renders through this one primitive.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Employee · Calendar, Manager · Team, Manager · Approvals, HR · Org / People, HR · Payroll, Manager · Focus, HR · Focus

Route: `/app/hr/payroll` · Access: HR / Admin

The Pay Run Command Center — manage the current org-wide payroll run via a 4-stage progress tracker, an anomaly queue requiring human sign-off, and tabbed Register/Reconcile views with CSV export.

Stage Tracker

A numbered-circle progress rail for a multi-step process — done / current / future, connected by a line.

Used in: HR · Payroll

Anomaly Queue

Per-payslip cards flagged for required human sign-off before release.

Used in: HR · Payroll

Register list / Reconcile list

A full payslip listing, and a month-over-month delta view with named reasons.

Used in: HR · Payroll

Masked

Obscures a sensitive numeric value (pay, phone) behind bullet characters with a click-to-reveal eye toggle.

Used in: Employee · Payroll, HR · Payroll

Priority Card

A colored-left-accent-bar card for anything urgency-ranked — icon+kicker header, title, detail, action row.

Used in: Manager · Focus, HR · Focus, HR · Payroll

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

downloadTextFile utility

A client-side Blob-based text/CSV file download helper, currently duplicated three times.

Used in: Employee · Payroll, Employee · Documents & Assets, HR · Payroll

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

HR · Onboarding

TICKET 20

Route: `/app/hr/onboarding` · Access: HR / Admin

Manage incoming joiners — a per-candidate, 8-item checklist card with buddy assignment and live progress.

Per-candidate Checklist Card

An 8-item, owner-tagged onboarding checklist with buddy assignment and live progress.

Used in: HR · Onboarding

Progress Bar

A spring-animated fill bar used for goals, checklists, and comp bands.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding

Avatar

Seeded circular profile photo with a graceful fallback to a colored initial if the image fails to load.

Used in: Manager · Team, HR · Org / People, HR · Onboarding, Employee · Home (Signal), Manager · Home, HR · Home

Route: `/app/hr/exit` · Access: HR / Admin

Manage departures — the structural mirror of Onboarding: a start-offboarding intake form and an 8-step exit checklist, with a hard-locked access-revoke step.

Start-offboarding form

A person / reason / last-day intake form that seeds the exit checklist.

Used in: HR · Offboarding / Exits

Checklist Row

A checkbox-square row with a strikethrough label and an owner tag.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Overlay · Plain Mode

Progress Bar

A spring-animated fill bar used for goals, checklists, and comp bands.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Manager · Planning, HR · Planning, HR · Onboarding

Access-revoke lock logic

A business rule that locks the 'revoke access' step until knowledge-transfer and asset-return are both done.

Used in: HR · Offboarding / Exits

Kind-Meta lookup helper

A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.

Used in: HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

Route: `/app/hr/documents` · Access: HR / Admin

HR's org-wide policy authoring surface — the same editor as Manager Documents, running with an added 'whole org' audience option and bulk nudge-non-acknowledgers action.

Entity editor panel

A title / body / type / audience / require-ack authoring form for documents and announcements.

Used in: Manager · Documents, HR · Policies

Activity log

A chronological list of the last few authoring actions.

Used in: Manager · Documents, HR · Policies

Status Badge

A status-tinted pill (draft / published / archived, or review status).

Used in: Manager · Documents, HR · Policies, Employee · Growth, Manager · Growth

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Route: `/app/hr/timeadmin` · Access: HR / Admin

Org-wide leave-policy administration — leave-type allotment steppers and full holiday-calendar CRUD (national / company / restricted), with an 'announce changes' broadcast.

Leave-type stepper list

A list of leave types with a +/- annual-allotment stepper.

Used in: HR · Time & Holidays

Holiday CRUD list

Add/remove rows for the org holiday calendar (national / company / restricted).

Used in: HR · Time & Holidays

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Kind-Meta lookup helper

A typed {label, icon, color} lookup-table pattern, currently reimplemented separately per feature.

Used in: HR · Time & Holidays, HR · Offboarding / Exits, Employee · Growth, Manager · Focus, HR · Focus

HR · Planning

TICKET 24

Route: `/app/hr/planning` · Access: HR / Admin

The same Planning component used by Manager; HR reviews and approves compensation plans once a manager has submitted them, rather than editing raises directly.

Band-Range Visual

A dual-dot visual of current vs. projected salary within a min-max band.

Used in: Manager · Planning, HR · Planning

Coverage Gap Card

An avatar plus 'covered by' dropdown and a Q-suggested one-click accept.

Used in: Manager · Planning, HR · Planning

Segmented Tabs / Filter Chip

A pill-shaped tab switcher or toggle chip with an active-segment highlight.

Used in: Manager · Planning, HR · Planning, Employee · Growth, Manager · Growth, HR · Payroll, Employee · Documents & Assets

Range Track

A dual-dot visualization of a value's position within a min-max band.

Used in: Manager · Planning, HR · Planning

HR · Insights / Analytics

TICKET 25

Route: `/app/hr/analytics` · Access: HR / Admin

Org-wide analytics, mirroring the Manager Insights page at company scale.

Talent 2x2 grid

A performance x potential quadrant grid of clickable person chips.

Used in: Manager · Insights / Analytics, HR · Insights / Analytics

Time-off heatmap

A team x week color-intensity absence grid.

Used in: Manager · Insights / Analytics, HR · Insights / Analytics

Chart primitives

A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.

Used in: Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Route: `/app/hr/focus` · Access: HR / Admin

An HR-flavored priority queue — pooled/anomalous payslips, a submitted comp plan awaiting approval, near-complete onboarding candidates with no buddy assigned, and org-wide flight-risk people.

Synthesized task list

The Focus queue's priority-sorted aggregator, merging six-plus live data slices into one list.

Used in: Manager · Focus, HR · Focus

Priority Card

A colored-left-accent-bar card for anything urgency-ranked — icon+kicker header, title, detail, action row.

Used in: Manager · Focus, HR · Focus, HR · Payroll

Swipe Card

A drag-to-dismiss card wrapper (swipe right to clear), with an elastic threshold.

Used in: Manager · Focus, HR · Focus

Rationale Disclosure

A reusable 'Why this?' collapsible attached to any Q recommendation — why / why-now / worth noting / evidence, with a confidence dot.

Used in: Manager · Focus, HR · Focus, Employee · Home (Signal), Manager · Home, HR · Home

Stat Pill

A colored-dot count pill summarizing one status category at a glance — non-interactive.

Used in: Manager · Team, HR · Time & Holidays, Manager · Focus, HR · Focus, HR · Payroll, HR · Org / People

Overlay · Settings

TICKET 27

Route: `overlay = settings` · Access: All personas

The personalization and preview overlay — wallpaper picker, avatar picker, a live Role & Access preview (the only place persona/lens access is actually granted), and system toggles (theme, sound, ambient motion, Plain mode).

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Wallpaper + Fluid Field

Selectable animated ambient background sitting beneath every screen — pure SVG/CSS, no canvas.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Overlay · Settings

Overlay · Team Availability Matrix

TICKET 28

Route: `overlay = matrix` · Access: Manager / HR

A read-only overlay showing a 14-day x teammate availability grid (in-office / remote / on-leave / weekend), with a per-day coverage-dip indicator.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Availability grid

A 14-day x teammate in/remote/leave/weekend grid with a daily coverage-dip row.

Used in: Overlay · Team Availability Matrix

Overlay · Add Person

TICKET 29

Route: `overlay = addPerson` · Access: HR

A small overlay form to add a new person to the org, immediately visible in the org graph and roster.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Person / Leave-Type / Duration forms

Simple field forms powering the Add Person, Add Leave Type, and Add Leave overlays.

Used in: Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave

Overlay · Add Leave Type

TICKET 30

Route: `overlay = addType` · Access: HR

A small overlay form to define a new leave type and its annual allotment.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Person / Leave-Type / Duration forms

Simple field forms powering the Add Person, Add Leave Type, and Add Leave overlays.

Used in: Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave

Overlay · Add Leave

TICKET 31

Route: `overlay = addLeave` · Access: Manager / HR

A two-step overlay wizard (pick a person, then type/mode/dates) for logging leave on behalf of a report.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

2-step Add Leave wizard

A person-picker step followed by a type/date step.

Used in: Overlay · Add Leave

Person / Leave-Type / Duration forms

Simple field forms powering the Add Person, Add Leave Type, and Add Leave overlays.

Used in: Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave

Overlay · Document Viewer

TICKET 32

Route: `docView (global id)` · Access: All personas

A global, full-text reading overlay for any single document, triggered from anywhere by setting one shared id rather than mounting a per-card modal.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Concept Icon + registry

One glyph and one semantic tint bound to each of ~46 named concepts — the single source of truth for icon usage app-wide.

Used in: Employee · Home (Signal), Manager · Home, HR · Home, Employee · Documents & Assets, Overlay · Document Viewer

Overlay · Retention Simulator

TICKET 34

Route: `sim != null` · Access: Manager / HR

A what-if modal for modeling a retention intervention (bonus, high-visibility project, or promotion) against a flight-risk person, with a live before/after risk gauge.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Lever chip picker

A 3-option intervention picker (bonus / project / promotion).

Used in: Overlay · Retention Simulator

RetentionGauge

An SVG radial gauge visualizing before/after flight-risk score.

Used in: Overlay · Retention Simulator

Chart primitives

A small hand-rolled chart library — grouped bars, mini progress lists, an SVG line/area trend, a radial gauge, heatmaps, stacked bars.

Used in: Employee · Growth, Manager · Insights / Analytics, HR · Insights / Analytics, Manager · Focus, HR · Focus, Employee · Payroll, Overlay · Retention Simulator

Overlay · Gesture Legend

TICKET 35

Route: `showLegend = true` · Access: All personas

An on-demand cheat-sheet naming the app's full gesture vocabulary plus the keyboard shortcut map.

Modal shell

The shared dialog chrome — scrim, glass card, icon+title+close header, scrollable body — reused by every overlay.

Used in: Overlay · Settings, Overlay · Add Person, Overlay · Add Leave Type, Overlay · Add Leave, Overlay · Team Availability Matrix, Overlay · Document Viewer

Gesture cheat-sheet grid

A card grid naming each gesture, its definition, and how to trigger it.

Used in: Overlay · Gesture Legend

Overlay · Product Tour

TICKET 36

Route: `showTour = true` · Access: All personas

A persona-aware, spotlight-and-card first-run coach-mark sequence (4-5 steps), replayable anytime from Settings.

Spotlight overlay / Step card

A coach-mark spotlight ring paired with a step-by-step instructional card.

Used in: Overlay · Product Tour

Overlay · Plain Mode

TICKET 37

Route: `plain = true` · Access: All personas

A complete accessibility fallback — the entire spatial, gesture-driven UI is replaced with one flat, scrollable page of plain sections and ordinary buttons operating on the exact same underlying data.

Flat accessible layout

Plain scrollable sections with ordinary buttons, replacing the spatial canvas entirely.

Used in: Overlay · Plain Mode

Checklist Row

A checkbox-square row with a strikethrough label and an owner tag.

Used in: HR · Offboarding / Exits, Employee · Growth, Manager · Growth, Overlay · Plain Mode

Masked

Obscures a sensitive numeric value (pay, phone) behind bullet characters with a click-to-reveal eye toggle.

Used in: Employee · Payroll, HR · Payroll
